FEATURES

BENEFITS

DESIGN

- Deep brown colour ▶ Exotic look
- Scalloped shape ▶ Avoids water traps
- Free of knots ▶ Modern look
- Hidden fasteners ▶ Perfect finish

ROBUST

- Pinaceae (Pinus radiata) ▶ Highly-stable wood
- Semi-hard wood, density 680 kg/m³ ▶ Ideal for elevated deck application
- Max dimensional variations: 4% ▶ High mechanical resistance
- The DTU 51.4 (French norm) requires a min pull-out resistance of 100 kg per 2 clip attachment ▶ Average results with Kebony® : 280 kg (tested by Crittbois)

SUSTAINABLE

- Furfurylation treatment: ▶ 30-year warranty*
- No chemical treatments needed ▶ The Kebony® technology increases the dimensional stability, as well as durability and hardness, of the wood. The process is based on impregnation with furfuryl alcohol, which is produced from agricultural crop waste.

BRILLIANT

- Grad™ clips are pre-fixed on aluminium rails and 100% hidden. ▶ Perfect finish and alignment, hidden fasteners
- The skirting and the deck are made with the same Grad™ products
- Disassembling keys ▶ Removable boards (one board at a time)
